Funding

Measure, Appointment or
Topic: LC 2

To whom it may concern,

No more taxes!!! We are being crushed by all the taxes we have now!! We already have the highest gas taxes in the country, we don't need anymore!! There needs to be more accountability/oversight with ODOT. They have wasted millions of dollars. Every time we go past a road project people are just standing around not doing any work.

You need to do what the Republicans want to do with the transportation bill.

All you do is tax and spend- and waste more money!

Sincerely,

Myrna Talbert
