Measure, Appointment or Topic:	LC 2

Dear Committee Members,

Before you even consider raising everyone's cost to register/re-register a vehicle, I hope you will look at imposing a fine for those who register late, for those with missing or illegible tags, for those with expired out-of-state tags, and those with missing plates. These drivers are effectively breaking state law, but there is no enforcement! Some of these infractions could be dealt with right at the DVM or DEQ. Vehicles modified to produce excessive noise has also been against the law since 2023, yet I do not believe it is being enforced either. Some of those in violation could also be dealt with at the DMV or DEQ.

I urge you to consider penalizing those who violate the law before increasing rates for everyone.

Thank you.
