Funding

Measure, Appointment or  
Topic: LC 2

Citizens do not agree with the Governors new transportation plan (to be voted on Aug 29th, 2025). Most people can't afford additional gas taxes, Title and Registration Fees, DMV fees etc at a this time. Oregon is already in the top five states for the most expensive gas in the country.

Before moving ahead with this plan, please audit ODOT and the 2017 transportation package and figure out where that money went. I seem to recall a good chunk of that going to fixing congestion on 205 and a new i5 bridge.

Please vote 'No'. Thank you.
