Measure, Appointment or
Topic: LC 2

Committee Members: We always wonder, don't you all live here too? Can't you see how the fiscal irresponsibility is negatively affecting you and the people you are supposed to represent? If the governor would actually manage the departments she is in charge of we wouldn't be having this conversation, but here we are.

You must not let this increase in fees go through. We pay more and more for less and less. The breaking point is very close and there will be unintended consequences of increased fees. When we can't afford to buy gas or register our vehicles, we will drive less and title fewer vehicles - which will in turn create less income for the state.

If you continue to reward the managers of state agencies for their misuse and mismanagement of our tax dollars it will never end - they will continue and the 'workers' who pay the fees (taxes) in the state will be forced to leave and move to a state that has good roads and we can survive on our income.

VOTE NO on bailing out a failed agency and management - Fire the top couple levels of ODOT management and insist that the new employees live within their budgets and do their jobs.

Thank you
