Governor and Oregon Congress-

We the senior citizens who have worked all of our lives in this state cannot afford to pay one more dime. We are on a fixed income which does not support us anymore without assistance. We have to work to afford to eat, pay our bills and live. We cannot live in Oregon if you keep raising taxes. We have cut back on everything so now maybe all of those who have more than social security can pick up the tab. You are turning your constituents into homeless people!!

Figure out the bare necessities for what the state needs and ditch your pet projects for Portland. You have an entire state to run just not Portland. Cut your expenditures more. Cut your paychecks. Live on what we do for a month and then you will have a grasp of how dire the situation is.
