Measure, Appointment or
Topic: LC 2

To the Transportation Committee:

I support raising additional revenue for roads in Oregon. I also support tolling of roads in the future. Please do not strip tolling out of the bill. Senator Meek is wrong on the merits of tolling and it will be a shame if one Senator's opposition to tolling takes down the bill. Please raise the gas tax as well as it will encourage people to purchase more fuel efficient vehicles.

Sincerely,
B. Torres
