I am submitting my testimony AGANST this Transportation Funding Bill. It is not right to tax everyday, hard working Oregonian's to fund a department that has squandered and lost appropriate funding given in the last 5-6 years. Our current and past Governor, the democrat majority in the legislature and the leaders of this department have aimlessly and blindly misspent millions of dollars and we should not have to pay huge tax and fee increases to bail out ODOT to the detriment of rural citizens. Thank you for your time.
