

Submitter:	Darlene Weaver
On Behalf Of:	self
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I am writing in support of LC 2 that would raise revenue for cities, counties, transit agencies and the Oregon Department of Transportation. I appreciate ALL transportation services whether I specifically use them or not, and I am willing to pay a little more per year to maintain transit opportunities, staff and equipment involved in snow plowing, emergency traffic management and road maintenance, as well as staff needed to develop and implement internal initiatives. Internal initiatives most often lead to increased efficiency and effectiveness, something everyone can agree they want to see in government. Laying off off behind-the-scenes staff would greatly diminish ODOT's ability to improve.
