Funding

Measure, Appointment or  
Topic: LC 2

We the workers of Oregon, have been taxed to the point of losing our homes, we have issues putting food on the tables, while our hard-earned money is going to Welfare and all the other organizations for individuals that do not want to work. Kotek wants to raise taxes, instead of getting offered help from Federal. Please, make her do the right thing and stop raising taxes. She has made Oregon very hard to live in. Thanks to the Dems, we are afraid to walk or use community transit to even get to work and pay for all of the freeloaders. What are we supposed to do, live on the streets, still work and have Kotek take our hard-earned money.
