Funding

Measure, Appointment or
Topic: LC 2

I am strongly opposed to further taxing Oregonians to cover the \$354 budget shortfall in Transportation Funding.

The solution is to "DOGE" ODOT. Give ODOT the flexibility to prioritize what it spends on and relax restrictions on those priorities. They likely need attrition in their ranks.

The current Kotex proposals do not represent bipartisan ideas, and they appear to be simply adjusting to political lobbying from union membership.

Go back to the drawing board!
