Funding

Measure, Appointment or
Topic: LC 2

Dear All, my family and I live in Portland, OR. I am very concerned about these regressive taxes that you are considering relating to the proposed Transportation tax bill. These additional fees will impact working families the hardest who must pay for fuel and use roads to get to their places of work. These taxes will make Oregon even less attractive for small businesses and families including my own family. Please reconsider these significant fee and tax increases. Oregonians are already taxed at some of the highest rates in the entire country. We need a break from taxes, not more of them! Please stop this bill and reconsider other ways to fund ODOT, including finding ways to cut costs / operate more efficiently. I want Oregon to be an attractive place to live and to do business. Thank you for your consideration! Kind
Regards, Jeremy
