Topic: LC 2

Taxes in Oregon have gotten so high the last ten years. Our house hold can't afford any new taxes. My two sons have delayed moving out because it's so expensive to live on their own in this economy. If our taxes are raised I will have to cut everything in my budget. Every month I go through my bills and make sure I pay on time and in full when I can. Lately it's down to payments. But they get paid. I want all of you to think really hard. Why can't you all stay in budget? Why are we paying for a bridge and starting it before we have all the funding? As I understand you all can pass something so we can put some of the money for the I5 bridge towards our shortfall! But instead you are going forward with the I5 bridge even though you are short the cost of it. If I did that with MY bills they would cut off any service! You all think we can pull money out of our ass? Cut all spending until you can spend less on bull sh** ! We the people are broke and can't afford any more! I hope all the people are paying attention to what you Democrats are trying to shove down our throats and votes all of you out that votes for this bill. Thanks for letting me say my peace
