Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am strongly opposed to this Transportation Funding bill. The Governor knows it is within her power to reverse a law passed in 2017 (Keep Oregon Moving bill) that would allow reallocation of transportation funds. The state does not need to further burden businesses and taxpayers to fix this problem. It alarms me that the Governor would prefer to raise taxes. Furthermore, this bill appears to include unconstitutional language that allows an unelected bureaucracy to raise fees in the future. Every legislator should reject this funding bill. Do the right thing for your constituents.

Sincerely,
Kiimberly Gallella
