Funding

Measure, Appointment or
Topic: LC 2

We think it's high time this state learns to live within its means the same as us working folk.

I'm tired of hearing our state government complain about losing federal funding for this or that.

ODOT is very important to the people of Oregon and to its employees. Why all of a sudden is ODOT broke. I seriously doubt this "funding crisis"

Happened without warning. I just love the way our state government is sooo forward thinking.

Come on guys this state has been run by democrats for decades, GET WITH IT!
