To Transportation Committee Members

No new taxes! Increased fee proposals are too high for Oregonians to absorb. Most of ODOT's current responsibilities should be taken over by Human Services dept. They should not be cleaning up homeless camps, building bike paths, and scrubbing graffiti! Good job for some of the homeless or prison trustees. ODOT should only be responsible for building and maintaining state highways and bridges. Their budget should be spent on these two tasks not a bunch of "feel good" stuff.

Here in Eastern Oregon, we don't have much public transportation. Why should we have to support Portland's Max system. Maybe it would have more riders if people felt safe on it!

Additionally, ODOT should be audited at least every other year, preferably every year! Should be held to same standard as private enterprise. Where has all that money gone?
