We are opposed to increasing taxes to keep basic services running. The state should be taking money from the Oregon Health Authority, or countless other programs that have money to apparently burn. It would seem the strategy by Oregon politicians is to just make it so painful, that the public will be willing to pay more taxes. Oregon is already one of the most expensive, highest taxed states to live in. No more taxes. You should be talking about how to make life more affordable for working class people.

thank you.
