Oregon Households are on a budget. Each day, we make decisions on how best to spend our money. We don't have a blank check or unlimited limit on our Credit Cards to buy what ever we want... However, our Oregon legislature seem to think they do. Many employees form Intel, Nike and others have lost their jobs. Households and Businesses realign resources as needed to fit within budgets and market conditions. The Oregon Legislature should do the same. Many people are moving to Vancouver, Idaho, Arizona, as a way to avoid Oregon's every increasing taxes. At some point in time, the state will not have anybody left to tax. Please listen to your constituents, the Tax payers of Oregon, that more taxes, in this economy, is not the answer. There is no blank check. Please vote NO on this last minute tax-grab!
