Any politician who calls the state legislature back to session to pass a TAX(s) on the people, in the worst economy since the Great Depression, has lost all touch with the People and needs to be quickly exited from office. This is a disgrace. This is all to feed the grift.... raise tax to over-fund government department, unions get paid, unions strong arms members to pay \$ to Democrat re-election coffers.... The People know your gift. As an owner of this government, I reject this tax.
