Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Dear Committee Members,

After looking into the budget and gathering other information it is definitely unacceptable to pass this legislation.

The taxpayers in Oregon already bear unfair and unnecessary taxes. Families are suffering and many are proposing to take their businesses elsewhere and families are searching for homes in other parts of the nation.

Of all times to be trying to do this outrageous move it is obvious what is going on. It is insensitive and completely irresponsible.

DO NOT go forward with this. Please convey to the Governor AND your fellow legislators how disgusted thousands of voters are with this last-minute move to call the legislature back to Salem and cost all of us more wasted money. ENOUGH IS ENOUGH.

I am part of six generations of Oregon families and we have never seen such foolish and wasteful decisions.

Please do not impose this on Oregonians or waste any more time or dollars.

Karen and Jock Elliott
