If ODOT had been a private agency, someone would of been fired for committing such an absurd descretion. We shouldn't be bailing them out. They have threatened to layoff people. The people they layoff are the people that do the work, not the supervisors, and they are still hiring people. The State keeps throwing money and wasting money on agencies that do not follow a budget and go oops and the Taxpayers always have to bail them out. I'm Taxed out. I don't have anymore to give. You are watching companies leave our State because they can't handle the B.S. going on here. You are losing good companies that brought lots of money into this State. You need to get your SHIT together and quit having the Taxpayers bail your asses out when you (State) F\_ \_ \_ UP!! NO MORE TAXES PERIOD!!!!
