Topic: LC 2

You keep raising my taxes and providing less and less in services. Another gas tax increase and registration fees makes it harder for me to retire one day in Oregon. My property taxes have almost doubled in the last 8 years alone. You spent billions on the Homeless problem only to increase it by 300%.

How about you publish the budget and where it is actually going and then cut stupid programs that fail instead of throwing more money at it.

Laying off snow plow drivers and the working people at ODOT doesn't fix anything.

Get rid of the administrator dead weight instead and spend the money better. We don't need more roundabouts and they cost millions more than a stop light and crosswalk.
