Topic: LC 2

Vote this tax burden down!! If you truly stand for the working class, for the needy, for the low income, for the people who struggle to make ends meet, STOP this insane tax. The wealthy won't care about a thousand dollars a year in extra taxes but this hurts everyone else. Gas taxes and car registration fees and "transit tax" on payroll will drive inflation on everything sold in Oregon.

Stop wasting money with 6-figure \$\$\$ ODOT job postings. Stop wasting money with poor project planning. Stop wasting money with free needles for drug users. Stop wasting money with food stamps that pay for soda and candy. Don't punish those who work hard and can't afford this taxation. Practice what you preach and stand up for the middle and lower class for a change!

Respectfully,  
Benjamin Singer
