Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

Please do not raise taxes or fees. We are already having a hard enough time with costs of everything going up, and gas powered vehicle owners are the ones primarily supporting the highways, so increased gas taxes only place further burden on them. Please find a way to use the money that the Dept of Transportation already has and receives. Separately, do whatever you need to make sure that electric vehicles pay their fair share.
