Funding

Measure, Appointment or  
Topic: LC 2

I request you do not support this bill. I think there has been gross mismanagement and now you expect the citizens of Oregon to pay higher taxes and fees to fix it. I do not appreciate scare tactics about roads not being plowed or emergency vehicles not able to get to where they need to go. There probably is a fix in the future if common sense would come into play. The answer is not raising taxes and fees. If we were younger we would move out of Oregon.
