Funding

Measure, Appointment or
Topic: LC 2

Govenor Koteck and members of the Special transportation committee: Governor was sworn in to protect the people of Oregon that is all the people. This bill of 5.8 billion in the next 5 years not only will help destroy the lower and middle class in ruining the infrastructure of Oregon's of education, manufacturing, medical field trucking farmers and ranchers etc. It is simple how you figure this out, taxes + cost of living (which we are one of worst) + all prices going up equally as well as the tax each year simply destroys incentives to work, live or contribute to society as we should. This undue burden, not a few but millions will be overwhelmed whether you think so or not. Stop destroying this beautiful state and turning us int a China Marxist run state.

Govenor and committee members, the true citizens of Oregon from the babies in the crib to 100 year olds, we beg you to say NO and stop this bill of insanity. You can't even handle the monies you get every year, how can you possibly think you can handle 5.8 billion. You already know greed breeds greed, and incompetency brings insanity.

Jim Donohue
