We reject the notion that taxing the working poor via fossile fuel taxes creates revenue to rebuild overpriced bloated Columbia River Crossing Bridge projects.

America First for Oregon means all peoples in the community with legal standing, regardless of gender, sexual orientation, and political alignments as we see corrupting all things in all bureaus of Multnomah County of Oregon.

Millions could be saved in the simple elimination and splintering to the wind of DEI ODOT Department. Lets start there as a good negotiating point or crossroads to rally the people of Oregon to supporting tax revenue to benefit of all Oregonians. Negotiate with the Oregon GOP with DEI and broker a lower tax plan to accomplish what we all need in Oregon.

Without compromise we have a Totalitarianism with Blue Anon Democratic Party as Donkey icons. not good

Thank you for the consideration
