the Legislature listened to the public and overwhelmingly voted down the huge tax increases during the end of the legislative session. Since then our Governor has made it her mission to get even with the legislature and has been vetoing many of the bills that passed easily...a war of how dare you not pass my taxes. Please stand strong for Oregon and vote down huge tax increases. ODOT can function on a trimmed down budget...roads and maintenance must come first, then if we can afford it send some to mass Transit...but at some point the big cities it exists in need to foot the bill...not taxes taking from far Eastern Oregon. Thank you for taking the time to read this, Native Oregonian who loves his State. Brian Arp
