Topic: LC 2

Joint Interim Committee,

I am in opposition of any further taxation on Oregonians. It is time for Oregon government agencies to live within their means. It is time for agencies (ODOT especially) to make sacrifices, eliminate non-critical functions, remove top heavy administrative positions and focus on essential services that benefit all Oregonians. Oregon deserves a common sense approach to funding by returning to the basics of core functions of the department. Please stop squeezing Oregon tax payers by asking for more funds whenever there is mismanagement that leads to shortfalls.

Thank you for your time,

Scott Zielinski

Oregon Farmer
