Measure, Appointment or LC 2
Topic:

As an Oregonian and a disabled combat veteran that has lived in this once beautiful state all my life, I have to tell you that we have been destroyed from the inside out with corruption, mismanagement and liberal idiotic policies that absolutely defy common sense. What's more odd than that is that the same people that are watching our state be destroyed continue to destroy it.

We cannot afford this, especially when our liberal democrats are throwing our tax dollars away on DEI and trans whatever...two concepts that violate every aspect of commonsense, but once again, we the people of Oregon must pay the price for this continued stupidity, and once again, we the people will be punished by our keepers that lord over us.

We can't afford this tax increase, we can't afford to live now with all the damage the liberal democrats have caused this state. Vote no on this bill, there are other monies that can be redirected to resolve this issue. The Native American's can wait on their waterway, DEI budget for ODOT...terminate it, Education and medical programs that give benefits to people in this country illegally, benefits Oregon citizens can't get because we are American citizens, terminate them. There are all kinds of pockets of moneys that can be realigned...this is where the focus should be, not the liberal democrats shoving their hands further down deep into our pockets ... again!

Vote no before we start losing federal funding, ignorant Oregon liberal democrats believe they are tough enough to stand against the federal government...they aren't, but we the people of Oregon will pay the price for their arrogance!

Vote no on that devastating tax bill
