Dear governor,

We, the citizens of Oregon need to gather to make good decisions to enhance the future of Oregonians. We need to look at the budget and make hard decisions that will lend to a happy and prosperous future. Taxing citizens for the mis-management of funds is not okay. Oregon is a prosperous state with amazing resources. Let's encourage our citizens to thrive versus just get by pay check to paycheck because our legislation can not balance budget. I say no to new taxes or fees of any kind! Make hard choices just like my family has too year over year. No new tax increases.
