Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

The Governor has the power to reallocate funds so the transportation department can use funds to avoid layoffs. Governor Kotek needs to do this. We do not need new taxes to cover misappropriation of funds. Oregonians have already spoken and let Governor Kotek know when we spoke against house bill 2025. You work for us and we have already let you know we do not want new taxes to cover mis management of ODOT. No new money until you can tell us where the last 5 billion went from 2017.
