Absolutely NO taxes. This is beyond unbelievable that the governor would throw together this "special session" when the bill didn't pass in the time allotted. Just like everything else in Oregon, we are seeing demand for revenue from the pockets of our neighbors and what do we have to show for it? Oregon is becoming unlivable. Stop paying the executives who aren't doing their job. Don't add taxes or fees. Do not enact a payroll tax. I do not approve and the governor and democratic legislators should be ashamed for trying to pull this kind of dirty trick
