Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

As a lifetime citizen, and a 20 year veteran of this great country, i am apalled at the disgracefull waste that takes place in the government of my state, i live on a very limited income and feel that the state should limit the waste of taxes that the great people of this state have to fork over every year, i believe the tax and spend mentality has to end, most people do not have the never ending flow of cash that the burocrats seem to think we have.
