Funding

Measure, Appointment or
Topic: LC 2

Please vote no on HB3402. Instead of rescinding HB2017, the Governor has essentially asked for a blank check for ODOT with no specificity in how these funds are used. My family and I are more concerned with the safety of road conditions, not DEI or other programs that don't directly contribute to maintainance our roads. In addition, ODOT has consistently demonstrated they cannot truly estimate the cost of a project, as shown by several large projects over the last few decades. Thank you for your time.
