Funding

Measure, Appointment or
Topic: LC 2

I am against hb2025. Oregonians are already taxed extremely high we cannot afford more taxes on our checks and at the pump. Our fuel prices are already 4th highest in the nation on average we cannot afford higher fuel prices. There is plenty of money being wasted that could fund our roads. All the money going to help illegal aliens folks that are in this country illegally who pay no taxes that money could more than solve a funding problems for our roads. Fund roads that get tax paying citizens to add from work. Stop funding illegals who pay no taxes! Please vote with common sense and your tax paying oregonians in mind.

Thank you for your time

Sincerely

Travis Brown
