Please...STOP THE INSANITY! We hardly can afford to go take a trip to the beach for a day, eat out once a month, enjoying a movie night is out of the question...not taking food or donating to a food bank, giving to our two favorite charities, going downtown to the waterfront to enjoy festivals, not going to concerts, gave up season Timber tickets 3 years ago, for the first time in our lives we had to finance a car, driving for Meals on Wheels (gas expense), carpet needs replacing, need a new dryer, visit kids out of state less, help pay for their gas to help them visit here, used to go to at least 2 OSU sports games twice a year, have not done that for 2 years...we do vote yes for our school bonds-but that also will probably end...please please think of all the people that work and live off all the businesses and opportunities listed above-these out of control poorly managed taxes are not just killing us, but our State has become a national laughing stock, we used to be so proud to say we were from Portland.
