Measure, Appointment or  
Topic: LC 2

Voters have already rejected multiple tax increases across a variety of methods—please stop trying to raise taxes on citizens who are already stretched far too thin these days when we’ve repeatedly rejected these increases.

We are one of the most-taxed states already. Find ways to be more efficient with what you have, like every one of your constituents. We aren’t getting pay increases. Neither should the government. Find ways to redistribute what you have and make the dollars stretch longer like the rest of us.
