To whom it may concern,

Please do not raise the gas tax. I don't think this is fair for those who use fuel.

I think a milage tax would be fairer, this way those who have an EV car or truck must pay their fair share of using the roads. People would have to prove their milage maybe by taking a picture of their odometer at the beginning of each year as well as writing it down along with the make and model of their vehicle.

It should not be only those who use fuel paying for all the transportation cost.

We already pay the Oregon State Transit Tax each paycheck. This is high enough. Maybe more of this money should go for roads and upkeep, helping rural Oregon and not just the metro areas.

Please do not raise the gas tax.

Thank you,

Elisa Heilman
