On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

I vehemently oppose this effort to FURTHER burden the People of Oregon to continue supporting potential waste, bloat, and inefficiency in State government, in this case specifically the DMV. If it is obligatory for any financially-failing private enterprises to be subject to audits and reviews to ensure there is no waste, fraud, or abuse, then WHY is that not also the case for government departments such as the DMV? Until the State effects a full and \*independent\* audit and review of any government department, they have no right to further burden the People with additional cost to support said government departments.

I demand you support Drazen's initiative to TEMPORARILY use rainy-day funds and IMMEDIATELY effect a full audit of the DMV.

Sincerely,  
Matthew Bossard
