

To Whom it May Concern:

As an ODOT employee and a taxpaying resident of Oregon, I view this funding package as self-serving to the few who support it and an insult to the public and minority of ODOT employees who actually put in an honest day's work. This funding packing doesn't fix or address the problems that got us here - bad leadership, mismanagement, wastefulness, and lack of accountability. Please address and fix the internal issues within the agency first to ensure that any funding that may come in the future will be managed responsibly.

Thank you,

~Douglas Paff
