As a person who works a full-time job and runs a small business I simply cannot afford the massive tax hikes that are being proposed by the governor. This year I will get 4% cost of living adjustments. However, my property taxes have went up, groceries prices are up, gas prices are up and I already pay well over 50% of my income to all of Oregon's ridiculous taxes and fees. I cannot afford to pay more at the gas pump and DMV. Oregonians should not be punished for a government that can not follow a budget and has millions of dollars missing and unaccounted for. I am begging everyone to vote down this tax hike. The answer is not punishing Oregonians with tax hikes. It's not taxing someone who has worked hard to earn their money back into the lower class. Please VOTE NO!
