Funding

Measure, Appointment or  
Topic: LC 2

I am writing today in OPPOSITION to this LC transportation bill. Our government spending is out of control without checks and balances, without accountability or transparency. The spending keeps growing, while our paychecks are not keeping up. All these increase in fees and taxes really hurt Oregonians and make it more difficult, especially the lower class. Where is all this money actually going? What are the ramifications for the realized mismanagement of money? Why can't the government and their programs or branches live within their means like the rest of us are supposed to do?

I urge a NO vote on this bill and instead evaluate the current spending and cut where it's necessary.

Thank you
