Topic:

As a person that worked in a management role for 18 years producing ODOT spec materials. I have witnessed waste that is not being accounted for.

An overpass that sits in Wickiup junction(lapine) this overpass is incomplete and will not be completed because of failed pre investigative work.

Money's are being dispersed for things in Oregon that don't fit the views of many Oregonians.

These things are taking place with no accountability.

Giving unelected officials (ODOT)the power to raise gas taxes without the legislation in unconstitutional according to the Oregon state constitution.

Oregons gas tax and income tax are of the highest of all the states in the union

I am retired and on a fixed budget. Asking people like me to correct spending errors made by leaders in the state is out of the question.

I DO NOT SUPPORT RAISING TAXES TO SUPPORT ODOTS UNACCOUNTABLE
WASTE
