No New Road Tax!

It is time to start living in the means of taxes already given to the State. Every \$ should be accounted for and made sure it is all going to necessary needs of the public. Citizens safety should be number one and fully funded. Having staff to maintain roads in a safe manner would be included. I would look at parts of the laws that gives some of the fuel taxes to the counties that use it to loan to other departments at the county and not on roads. Force that to be the only use by law and get back any not used for that purpose.
