

Submitter:	Andy Holthouse
On Behalf Of:	All Senior Citizens
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

My wife and I are both in our mid 70's and we both have cars and drive.
We are both on Social Security and so have a fixed income.
Inflation is killing us already and we cannot afford any more increases in our
transportation costs.
Consider that you legislators will be senior citizens some day and you'll have
empathy for us and other Oregonian seniors.
