No New Road taxes! I am recently retired and on a fixed budget. Every time fees and taxes are raised I have to make hard choices on necessities for everyday items. The republicans have a plan that will not burden unduly burden everyday Oregonians. There are many companies in OR laying off workers, while we don't want to see it happen anywhere, it maybe needed for ODOT to work within a budget they were given. Plus there needs to be better accountability before ODOT gets any new funds. Thank you.
