Funding

Measure, Appointment or
Topic: LC 2

I am opposed to any further taxation to fund ODOT until there is some accountability for the accounting errors and massive cost overruns on the MEGA projects. If I made a \$1.1B accounting error at work, I would now be looking for a new job. That doesn't seem to happen at ODOT. Kris Strickler and Travis Bruower are ultimately responsible for the budgets at ODOT. New leadership is needed and ODOT need to restore trust with the citizens of this state before being handed even more money.
