Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I am opposed to any increases in taxes for the purpose of funding ODOT. The Governor has threatened personnel cuts throughout most of rural Oregon instead of holding ODOT leadership accountable for mismanagement of millions of dollars. Our elected officials should instead allow dollars in the existing budget to be moved so that essential services are fully funded, that cities and counties receive their share of dollars and that ODOT and the State stop funding all non-road activities.
