Funding

Measure, Appointment or  
Topic: LC 2

Oregon government got used to the extra available funds because of covid. The time has passed for our government to sit back and start working within their means, like all of the citizens that pay our taxes to Oregon.

Control your spending and stop threatening changes you think will have the most potential damage to the tax paying citizens.

Tax payers have to budget to deal with rising costs. Governments need to do the same.

Remember, it is the tax paying Oregon citizens that you should be working for, not the illegals and "squatters" that do not provide any resources to the government.

They just enjoy the benefits the government lavishes on them--at the expense of the tax payers.
