Topic: LC 2

We as Oregon residents are taxed enough. I do not support raising payroll taxes as this is going to destroy our small business and Oregon. I do not support raising our gas tax, or any other taxes, ODOT's package needs to be addressed from the top down, they are cutting from the bottom, they are cutting the folks that actually do the work. No one in ODOT needs a 750K salary.

Please see where the mis spending is and fix that, not raise taxes on everyone who is already taxed enough.
